

ALLIANCE
OF
CONSTRUCTION
TRADES

BPI Network

ACT Member Company _____

ACT Member Name _____

Phone Number () _____

The Business Practice Interchange (BPI) of the Alliance of Construction Trades has been developed so members can share actual business practices in our area. This network will provide information to help subcontractors and suppliers, who commit their resources to a project, make more informed business decisions. To ensure that the function of the BPI is not misunderstood or abused, the participants are asked to agree to the following:

- The purpose of the BPI is to exchange legitimate past business (*2 years*) information for the mutual benefit of the members.
- It is not to restrict the exercise of independent judgment by the members in the management of their business or to interface with free and lawful competition. Such practices would be illegal and are prohibited.
- There will be no discussion of member's prices or credit terms.
- No agreement may be made between members against a customer as a result of their business practices.
- All information will be factual, first-hand information only; no hearsay.
- No personal disparagement is intended or allowed.
- The exchange of past, actual information of a positive nature is strongly encouraged.
- Participants will refrain from discussing items in which they have a conflict of interest or otherwise feel uncomfortable discussing.

For Questions about this program, call the ACT office at (520) 624-3002
