

February 21st Membership Dinner Meeting

Sun Safety for the Outdoor Worker

Denise Spartonos, Community Outreach Coordinator for the **Skin Cancer Institute**, University of Arizona Cancer Center will discuss what skin cancer is and how to prevent it along with information on sun protection products and how to improve sun safety in the workplace. A skin analyzer machine will be brought that will show hidden facial sun damage.

Nate Hutchings with **R&A CPAs** will be giving a presentation about **Information Security For Your Business**. As many as 50% of Americans were likely impacted recently with the breach of personal information of one of America's largest credit bureaus. The internet and the world of IT are dynamic entities, ever growing and transforming. What was secure yesterday may not be secure today and we all have something to lose through vulnerable data networks. Cybersecurity is crucial to companies regardless of their size. From clients' credit card information to employee social security numbers to personal medical data; a loss in any of these areas could prove devastating to most organizations.
